

The IBCZ-N2 1000L Cylindrical Intermediate Bulk Container

This new IBCZ-N2 1000L container allows for transport/storage/process of UN/DOT chemicals, coatings and other hazardous materials while packaged under an inert atmosphere. The robust construction provides a long lifetime of use for a UN/DOT returnable container, acting as a transport, storage, and process vessel, and with the capability of Nitrogen blanketing, results in maintaining high product integrity when it is ready for dispensing at the customer's location.

Enhancements include:

- **Advantages:** Nitrogen blanket improves product integrity by eliminating oxygen and moisture, as well as improves employee safety by reducing contents exposure to fillers/dispensers
- **Volumes:** 500-1000 Liters
- **Handling:** Suitable for transport by pallet jack, forklift and crane/ Stackable
- **Certifications:** UN/DOT/CE Approval/ Compliant with EG1935/Aseptic Version available

This IBCZ-N2 1000L cylindrical IBC is designed for complete emptying of contents due to a deep drawn bottom, with no dead space, and a flush mounted outlet valve. The four-way accessible leg base guarantees optimal weight transfer to the frame, allowing use with a pallet jack and/or forklift. These units are 100% recyclable. The solid construction of these reusable containers allows for continuous use.

Black Forest Container Systems, LLC located in Greenville, SC, founded in 2000, is the leading distributor in North America of closed loop custom equipment and multi-trip stainless steel packaging systems. Their product offerings include stainless steel containers, intermediate bulk containers, mini-bulks, totes, ASME pressure vessels, process tanks, storage tanks, flasks, bottles, fermenters, wine equipment and process drums.
